AMERICAN OFFICER PUTS DOWN REVOLT

WITH THE AMERICAN FORCES IN GERMANY, Nov. 7. (By the Associated Press.)—Single-handed, an American intelligence officer recently put down a "revolutionary" movement in the area on the Rhine occupied by United States troops.

The first the Americans knew of the "revolt" was when news reached army headquarters that Luetz, a village of 200 population, a red flag had been hoisted and was waving in the breeze at the tip of a 70-foot pole. When the American officer arrived in Luetz the "revolution" conceived by a society calling itself "Proletariat" (chilarity) and composed of young men, most of whom were discharged German soldiers, was well under way and none of the inhabitants could enter or leave the village without proper passport provided by the society members.

Luetz, like many German villages in the hills, has no troops in the town, the army depending upon an occasional patrol to keep in touch with events.

The American summoned the gendarmes, or the chief, official of the town, who informed the officer that this was the third attempt of the "Proletariat" to rule the village and that the action was directed against the Catholic priest for whom the young men had a pronounced dislike.

The American officer summoned the executive council of the society, provided them with pick and shovel and had them dig up the flag pole, amid the applause of the conservative element of the village. He instructed the burghmaster to withhold until further notice any authorization for meetings of the "Proletariat," gave the executive council a dressing down and instructed the one German policeman to patrol Luetz at all hours on Sundays when most political meetings are held.

Each member of the "executive council" promised to be good hereafter and none of the society members were arrested. They agreed that the American had convinced them that "revolution" did not pay. The revolution had lasted six hours.

BELGIAN HAS TROUBLE WITH COUNTERFEIT COINS

BRUSSELS, Nov. 7.—Small counterfeit coins made of zinc are being passed at face value in the Belgian capital. Much of the current coin, especially the pieces from 5 to 50 centimes, is made of this metal owing to the scarcity of nickel. Zinc evidently is conducive to counterfeiting, for there is in circulation much unauthentic money made of this metal. The government is said to be aware of the practice and when nickel becomes cheaper new coins may be made to take the place of the bad ones.

BOY OF 18 CONFESSES TO \$40,000 ROBBERY

HELENA, Mont., Nov. 7.—Charles Stevens, 18-year-old messenger for the Union Bank and Trust company, confessed today, the authorities announced, that he stole \$40,000 worth of securities from a registered package which he was conveying last Wednesday from the postoffice to the bank.
Stevens, the authorities asserted, admitted that he had two accomplices in the robbery. After the money package had been opened and its contents divided, Stevens' two companions had bound and gagged him, the confession alleged, to make it appear that he had been held up and robbed.
James Ford and George Blodgett, arrested Wednesday and later released,

WOMEN OF LUXEMBURG ARE NOW IN POLITICS

LUXEMBURG, Nov. 7.—Women of Luxembourg share political privileges equally with men under the new suffrage law in this little state ruled by the Grand Duchess Charlotte. Women candidates for the chamber of deputies already have been picked by several political groups and antisuffragists concede that some of them would be elected.
Voting in Luxembourg also was made compulsory although the percentage of abstentions has been unusually low.

GLANDS OF DEAD MAN RENEW MAN'S YOUTH

SAN QUENTIN, Cal., Nov. 7.—Youth is returning to the old man in the prison here who was given the interstitial glands of Tom Belton when Belton was put to death last Friday.
Before the operation the old man had a poor appetite, today his appetite showed "marked improvement," according to the prison physicians.
The old man's pulse before the operation was 72. Today it was caught several times at 76. His temperature is normal.
The doctors said this indicated strength is returning to the old man and that the blood is pulsing through his veins with renewed vigor.

A Rock Bottom Fact!

"I demand for myself absolute comfort in shoes which are at the same time smart looking, well fitting and long wearing, and I can't expect any other man to demand less."

Shen O'Connell

THE shoes in our store were made from leather and findings bought months ago before the recent tremendous advances. The actual retail price, based on the cost of labor and materials used, was stamped on the soles during the process of manufacture. That price cannot be raised.

That is why

in our store is selling now from \$2.00 to \$5.00 a pair less than the same shoe would cost if made from materials bought today. But "price" is only one of the reasons why you should buy Emersons. We can show you a wider variety of up-to-the-minute styles than you can find anywhere else in town. A glance at the models shown in our store windows will convince you of that. Whether you prefer the narrow toe, flat English last, or the medium broad toe, we can show you a model that will be the final word in fashionable footwear.

You do not have to worry about the wearing qualities of an Emerson Shoe. The trade-mark stamped on the sole is a guarantee of quality that has been rigidly maintained for over 40 years.

Whether or not you are in the market for a pair of shoes at the moment, it will pay you to call at our store, examine our shoes and convince yourself that Emerson Shoes will give you more per dollar than you can get elsewhere.
